

Color Tag

How to play:

1. There are three teams: red, yellow, and blue.
2. Teams try to tag and, thereby, eliminate members of the opposing teams.
3. However, in order to eliminate someone, a player must tag that someone at the same time, and while touching a member of the third team. Thus, in order for a red player to eliminate a blue player, the red player must be touching a member of the yellow team and they must tag the blue player together. This is because red and yellow make orange and orange is blue's opposite on the color wheel.
4. The team with the most players at the end of 2 minutes wins.
