

Evolution Game

How to play:

1. Have the group in a circle.
2. Everyone starts out as an egg and places their hands above their head and together so that they look like an egg. When you say "Go!" each person will find another egg.
3. Once they found that person they will then play Rock, Paper, Scissors. The loser stays an egg and the winner becomes a chicken, placing their arms as wings and making chicken noises.
4. The chicken then looks for another chicken while the egg looks for another egg.
5. When you win as a chicken you become a dinosaur, placing your hands out and roaring like a dinosaur. If you lose as a chicken you drop back down to an egg.
6. Dinosaurs then find other dinosaurs, where they will play to become the tigers. Tigers move their hands like tiger claws and growl. If you lose as a dinosaur, you go back to being a chicken, looking for other chickens.
7. Tigers find other tigers, they will play rock paper scissors and the winner will become Elvis. Elvis plays air guitar. If you lose as a tiger you go back to being a dinosaur.
8. Elvis people will find other Elvis people and the winner will then become Super people. If you lose as Elvis you go back to being a tiger.
9. Super people put their hands over their heads like superman and look for others like them.
10. If the Ultimate person loses to another Ultimate person they go back to a dinosaur, and if they win they stay as ultimate people.
