## I Am...Fingerprint

**Component:** Math & Literacy

**Time:** 25 minutes

### Materials:

- Fingerprint Template
- Markers or colored pens
- Construction paper

### Procedure:

1. Have students think and discuss what makes them unique. What things do they like, do not like, hobbies, interests, etc. Discuss with them that this makes them special and different, just as no one has the same fingerprint as anyone else.
2. Give students a half sheet of the fingerprint template and have them write all the things that they thought of and discussed about themselves. Allow students to use different colors or one color. (maybe a favorite color)
3. The challenge is to fill up the entire fingerprint.
4. After completing the fingerprint, cut it and glue it onto construction paper and share it with the group.
