Egg Power

Component: STEM

Time: 25 minutes

Materials:

- Plastic eggs
- books

Procedure:

1. Open up 4 plastic eggs and only use the bottom of the plastic eggs.
2. Place the eggs (open side) down and space them out so that you can stack books on top of the eggs.
3. Before placing the books on top of the egg, have students guess how many books the egg can hold.
4. Place the books on top of the eggs.
